E&PS Undergraduate Research Support Program
Sponsored by the Caswell Silver Foundation
and the College of Arts & Sciences

Application Form
The requirements for E&PS Undergraduate Research Support are that the student be a declared major in an E&PS program and have a designated faculty mentor. The Department encourages all undergraduate majors (BS/BA in E&PS; BS in Env. Sci.) to become involved in research. Often this activity coincides with an Honors Thesis (see additional information sheet; if you are unsure as to how the GPA restrictions affect your participation, meet with the Departmental Honors Advisor, Laura Crossey). Funds are available for expenses incurred or anticipated during the academic year and the summer through June 30. Amounts are generally in the range of $300-$500/semester, but there are exceptions. Funds will be provided on a reimbursement basis, once all necessary documentation has been provided. Reimbursement may include such costs as departmental or personal vehicle use & other field/meeting expenses, sample preparation and/or analysis fees, and other research material/participation costs. Please fill in the information below. Turn forms in to the Honors Advisor (Dr. Crossey’s mailbox in main office):

Departmental Honors Advisor: Laura Crossey
Northrop Hall 141
lcrossey@unm.edu

Name: ___________________________________________ Date: ____________________

Banner ID: _________________________________

Degree sought from E&PS: ____________________________

Anticipated Semester of Graduation (include sem & year): ________________

Amount of Request: $ ____________________

Email Address: ________________________________

Mailing Address: ________________________________
